

General Headquarters holds a Preparo together with Núcleo Samaúma

Preparo at Samaúma: sincere friendship and love for thy neighbor. | Photo: Julio Trazzi

The General Representative Mestre, Paulo Afonso Amato Condé, the Representative Mestre of the General Headquarters, Edison Luis Guedes Neves, and the President of the General Headquarters, Francisco do Bomfim Salgueiro Feyer, thank the Representative Mestre, Rodrigo Polignano, and the entire irmandade of Núcleo Samaúma, for the Preparo they did together on August 9th, 10th and 11th.

“To Representative Mestre, Rodrigo Polignano, Mestres and Counselors and the much valued irmandade, we are grateful for the care and affection with which the irmandade of the General Headquarters was received, with open arms, by Núcleo Samaúma, and in how we were able to commune with goodness during this great work party – the Preparation of the Mysterious Tea, the legacy of our beloved Mestre. Dear Brothers and sisters and friends, in the course of our days, may we keep this disposition of nurturing this House of Fraternity, always in service of the King, with hearts that reflect in life the great virtue of serving. As we continue being worthy of the blessings of our Great Mestre Gabriel, we renew our wishes of Light, Peace and Love.”

Support from the Núcleos is fundamental to the General Headquarters

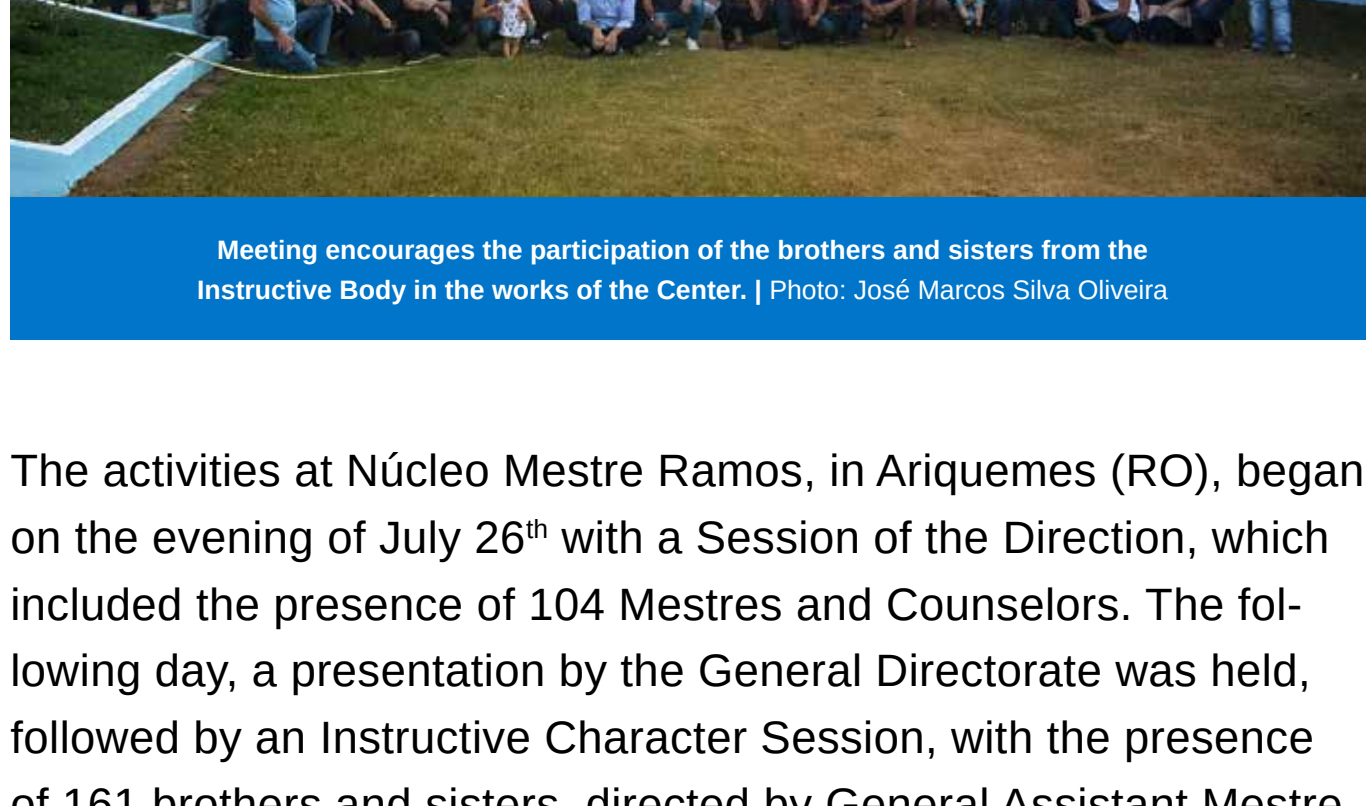

The General Representative Mestre also thanked Núcleo Breuzim (Cuiabá), which also recently held a Preparo and sent Vegetal to the General Headquarters. And, in the same way, to Núcleos Cruzeiro do Sul and Jordão, who donated Mariri and Chacrona, along with other Núcleos that have contributed with Vegetal for the General Headquarters.

“This support from the different Núcleos is fundamental for the works of the General Headquarters and the General Representation because, in addition to our irmandade, we host many different meetings and moments where we have Sessions with many visitors. We are also grateful for the collaboration and friendship that we have found throughout all of the União with the works of the General Directorate and the General Representation. May we continue uniting more each day with our thoughts in the Mestre Gabriel, the true Pastor of this Great Flock of Peace.” (MGR)

Meetings with the Instructive Body continue

Two more Meetings were held with the Instructive Body, with disciples from the 6th and 2nd Regions.

The activities at Núcleo Mestre Ramos, in Ariquemes (RO), began on the evening of July 26th with a Session of the Direction, which included the presence of 104 Mestres and Counselors. The following day, a presentation by the General Directorate was held, followed by an Instructive Character Session, with the presence of 161 brothers and sisters, directed by General Assistant Mestre Teodoro Irigaray, and which also included the participation of General Assistant Mestre Mário Filho.

The Central Mestre of the 6th Region, Francisco de Assis da Silva, said that the Meeting provided an important lesson in the formation of leaders:

“This Meeting left a positive result for this Region, where the Instructive Body could see the actions of the General Directorate and of the General Representation more closely, incentivizing the participation of the brothers and sisters in the works on behalf of the growth of this Great Work.”

On August 24th, in Manaus, the General Directorate held the 1st Meeting of the Instructive Body of the 2nd Region, at Núcleo Princesa Sama.

The schedule of events, which included the presence of over 550 associates of the Instructive Body, began with a presentation by Mestre Iber Pancrácio, the General Directorate Office Manager, about the organizational structure of the UDV and the principal work projects in development. Next, the President of the General Directorate, Mestre Tadeo Feijão, presented the main projects developed during the triennium and highlighted the importance of the Faixa Adicional as a method for building up and expanding the UDV:

“The Faixa Adicional is an opportunity for all people to participate in the construction of a new moment and of a new society. I don’t think that the Faixa Adicional will be a way to raise resources for specific objectives. I believe that it allows for us to cross borders and to expand visions. It allows for the participation of the people.”

In the afternoon, the Representative Mestre of Núcleo Fortaleza (11th Region), Antônio de Pádua, presented the lecture, “Mestre Gabriel: Life and Work”, as a way of bringing more knowledge to the disciples of the Instructive Body, contributing in this way to the work of the formation of the leaders of the Center.

For General Assistant Mestre, Teodoro Irigaray, the Meetings with the Instructive Body aim to bring them closer to the General Direction of the UDV:

“The 2nd Region has a special importance in this history and in the expansion of the União. For this reason, the participation of a large number of disciples offers the opportunity for everyone to receive clarity to their questions and to integrate themselves to the initiatives on behalf of the overall cause of the Center.”

At 8:00pm, an Instructive Character Session was held, which included the presence of 660 disciples. The Central Mestre of the 2nd Region, Mestre Mauro Allen, expressed his gratitude for the Meeting:

“For us, this Meeting is a legacy of good teachings, which will certainly provide us with greater spiritual empowerment and a clearer consciousness for the importance of our mission in this Sacred União”.
